## The PCIA Mission

The Piscataquis County Ice Arena will provide an environment where the people within our county, and beyond, can coexist and prosper in physical health, foster personal connections, and improve overall mental well being. From on-ice activities to connections made at our NxtLvl tables, all in our Piscataquis County communities will have the opportunity to contribute.

## Fun-Facts!

**YOU DON'T WANT TO BE ANYWHERE NEAR THEM DURING A LANDING.**

Male skaters weighing 150 pounds or more can land on the ice following a jump with extraordinary force: more than 1000 lbs. of pressure.

## THEY SPIN AT 300 RPM.

Have you wondered how skaters can endure the seemingly-impossible speed reached when they execute a spinning jump? So do we: At more than 300 revolutions per minute (RPM), figure skaters experience as much RPM as astronauts in centrifuge training.

**Be on the lookout for more events at the PCIA with Ice Dance International!**

## Ice Will be back in for the first part of July

and will stay in until April of 2024!
